Place the base on the surface. Step 2 Install a glass tray inside the base. Lower double level cooking racks on a liner pan. Step 3 Set the food on the cooking rack. Place a transparent dome above the food base. Turn the assembly of the heater control clockwise into the dome until it locks in place. Step 5 Click on/off to enter the oven. Step 6 Click Level for Express Cooking. These set levels range from one to four. Level one cooks for one hour, level two for 45 minutes, level three for 30 minutes and level four for 15 minutes. Click Start to start cooking at your chosen level. Click pause/clear to stop cooking or choose a different level option. Step 7 Click Cook Time to select a specific cooking time. Move the Start button left or right for the set minutes. Click Cook Time again to set the hour. Click Cook Time again to save cooking time. Click Start. Step 8 Click Power to select the cooking temperature. Turn the start handle left or right to change the temperature. Step 9 Click Timer to delay cooking. Turn the Start button left or right to set the minutes. Click the Timer button again to set the hour. Click the Timer button again to save time.
