Title: Ordinary People Author: Andrea HirataISBN: 978-602-291-524-9Page: xii No 300Print: First 2019Genre: Fantastic Novel People 10th novel by Andrea Hirata. This fictional novel was published out of frustration expressed by Pakcik Andrea for the failure to send a smart child to the medical faculty at a public university in Bengkulu. This is the opening act in the novel by Orang Orang Biasa. Yes, only this time I found the writers' suggestions quite touching. However, there are things I love about this novel because I failed to get Mr. Sik's signature on the first page. When this book was published in 2019, I still had another book to finish, and my savings weren't enough to buy the book when PO was signed. At school I didn't have a fixed income. After I had the opportunity to buy a book, I immediately read it and fell in love with ordinary people in this novel. Don't miss Mr. Sik Andrea Hirata as well. Respect and congratulations I thank you for it. It seems true, Orang Biasa will be the second work of Mr. Sik, which can reach an international level after the novel Laskar Pelangi. The story of ordinary people begins with the anxiety of Inspector Abdul Rohai and his subordinate sergeant. Arbi, who never refuses the orders of the inspector and faithfully accompanies, Poconia assistant goal bangget: V Rojali police inspector appointed in the city. The more days he gets, the more he sees a criminal board that never folds up. I would like him to roll number 0 on the board and write it down to number 1 or even 2. But it is difficult. Belantik City has been silent for a long time, no crime, no blast, no crime. Without him, noticing the principle that the inspector had kept all this time to be honest the policeman slowly fell asleep inside him because he had not dealt with the criminal case for a long time. Like the sergeant, he can't help but be sad when he sees his inspector as impartial as he does. Continuing in other characters, Chapter 2 begins to tell the story of 10 ordinary people, namely Dina, Debut, Undai, Salud, Sobri, Tohirin, Onorun, Ruspil, Nihye, and Junilah. A very unique name, yes. They are united because of the unique similarities that are painstakingly learned, and often in bullies. At school, they were backbenchers, and were often targeted by math teachers. When I first read each of these 10 characters, I was a little confused and didn't realize that Mr. Sik meant to form so many characters, usually other novels never so much. Then, on page 15, the first sheet of Chapter 3, I read a sentence that stunned me, namely .... I ten, it may be more appropriate to be called hordes. After all, it's hard for ten friends to make a story, an author who isn't mentally strong will back off because it's not a complicated game, name of ten men! Afterwards, I thought. And why can I easily remember each character? Aren't you confused? And instead of falling in love with every character of this ordinary person, Andrea Hirata, can make a story with many characters without embarrassing the reader, instead of loving the character. Indeed, these 10 characters have their own roles and functions. Hebaatttt o Return to the story of the OOB, after all this time passed, 10 comats finally go through their respective lives. Some have bookshops, they work in cafes, some are still at home, some are married and have children. Dina is one of them. She has 4 children, her eldest child is called Nuraini Oini - a daughter who is not much different from her mother Dina. Mathematical allergy, always sick and fed up with mathematics. However, closing the story, something moved Nini, so she became an exemplary student, even making her a test at the state college. Good news as well as piercings for Dina, where else is she looking for a fee to pay for Nini's tuition? After trying to find a loan to a co-op, or a bank, but no one wants to give credit, look at Dina, who is just a toy seller. The fate of Nini's education is actually on the horns. Then Dina meets Debut, one of his 10 mates. It's true, best friends are the place for us to splash out the game and always come up with a solution there. Then, a touching, tense, gripping, upsetting story was carried out by 10 friends to free Nina, Dina's son, who wanted to attend medical school. The incident coincided with an annual event in the town of Slantik. Not only is 10 secawa busy releasing Nini's dreams, but the inspector is also busy as he sniffs the bad things when the city is holding a holiday. The story in this section will lead to the cover of the book Ordinary People. After reading it, we are sure to recognize the character with a monkey mask. Spoilerrr @ "Loh kok Gini, huh?" version anggun This section for what could be called the flaws of ordinary people's novels. Let me see if I'm a reviewer again, right. It's not about the perfect side. Hhehe. Honestly, time feels fast when I read this novel. Then realized that the oob novel is quite subtle, yes, because the arrival read the sentence is over. I still want it to be a sequel, hehe. At first I felt bosen when the storyline tended to be slow in the first section, telling the childhood of 10 friends when the main theme here was not their childhood. I've been thinking about reading the jump page, but I'm not sure because I like to read chatter or penny conversations that are often done by 10 friends. Then, the arriving storyline changes briefly as it nears the end of the story. A lot which appears, how and where the debut and other friends earn money to replace what he got? Spirit, I'm a greget, why rush, Mr. Sik? Sometimes I feel that the inspector is too nimble, so good at reading the movements of criminals. If he did a little squeathed or makes a mistake in the hypothesis, will it be more fun? Hmm or maybe if it was done so that it would change the overall thread, right? Maybe it's I want to be dramatic again; vBut, the superiority of this novel OOB many gaesssss gaessss sampe want to cry because I can really read the story of OOB @ characters Nihe and Juni that make me verytt entertained. Handai and debut so Klopp, duch pokonya 10 disjointed is unique and can unite in an amazing waymnn. Then, the inspector is very fair, thoughtful and embracing his daughter enough to mellow @Ye, can really talk about the content of #DirumahAja activities by reading this book to ordinary people. If misall, one day in filmkann, actor Nihe hopes to be played by Dec Osa Danis Suchi Urai, hhehe. You have to be cool so Nihe: Okee, gaesss is just a review akuuu. Let it be senengg and useful, yes. Don't forget #DirumahAja!!! If you want, you can share my letter this, yes, hhehe. See you #Katakuk slanjutnyaaa @❤️lg: @anggunfahmi what can ordinary people do? Woi, this can be a devastating bo! When the side of their humanity continues to be closed. And when their only dream is threatened, it cannot be realized. Then they, these stupid and poor ordinary people, will return firmly united. They can do anything, even carry out ambushes that are remembered throughout history. It's like a story you can find in this book. About OOB This is Andrea Hirata's latest work of fiction. OOB stands for the title of the novel: Ordinary people. 10th novel published by Andrea Hirata with publisher Bentan Pustaka. Really not disappointed I followed the PO of this book. His 262-page story was instantly spent overnight. More out of curiosity and impatience to guess the ending. More importantly, my book has the author's signature. Oh, this signature bulpen is not scanning Nan, Andrea Hirata Gitu Loh. The feeling becomes more melancholic. My favorite author signed my novel, which will be on my home bookshelf. Anyway something special deh. This OOB novel was originally sold with a pre-order system that opened from February 26, 2019 to March 10, 2019. The publisher is Bentan Pustaka, the same publisher as his previous work. Andrea Hirata's library and range of management includes 20 online stores and 174 resellers across Indonesia. If you are now, you can get this OOB book at your nearest bookstore starting March 26, 2019. The cover is so bold - it's a plug-in dominant yellow. Attracted attention as soon as I opened it with the cover of the delivery service. More interesting in the words of Jill Simmons, New York, who stated that Ordinary People, was destined to become the second international bestseller. According to him, OOB is destined to become the second international bestseller from the author Andrea Hirata, after Laskar Pelangi. Yes, Laskar Pelangi has so far been successfully translated into 25 foreign languages. Well, this compliment of OOB really contains great hopes and prayers! Now let's see how powerful the storyline is. This is the story of a group of ten ordinary people, marginalized groups who are so persistent as to seek the dream of their child friend. Everything they're going to do, including committing a crime. There's got to be a cop. And that's what sets the story of discovery in this novel. The story begins with the anxiety of a character named Inspector Abdul Rohai and his constantly devoted subordinate, a sergeant. Arby. An old law enforcement officer with a duck but motorcycle, which is firmly the establishment always being an honest cop, is on a straight track, even without abundant wealth. The path is from law enforcement that puts loyalty and honesty above all else. What can a law enforcement officer whose mind is so closed? Make no mistake. You know what criminals are most afraid of - criminals on the ground? Know that the truth is that there is nothing more terrible on the part of criminals than honest law enforcement (p.15) It is said that Inspector Abdul Rohai looked at a shabby board in his office. It says that crime statistics in the city of Slantik are becoming less and less. People remain a lot stupid and poor, but naive. Its citizens seem to have forgotten how to act evil. Later in life, it turned out that ten ordinary people turned over data - crime data. Ten very ordinary people, in fact, who have been friends with each other since high school. They are often together because they are the mostdungu group of students placed on the back benches. One by one, they dropped out of school. The level of academic ability of those in the field is increasingly divided from the hereditary poverty of their families. Bullying is already a daily diet. What a tragic combination. These ten ordinary people, as adults, then work like ordinary, poor people. Some are gravediggers, unemployed, brain work, pelvis pelvis drivers and tank septic tank cleaning car drivers. Their leader was Awaludin Debut, who later owned a small bookstore in the city. The Heroic Bookstore is named after him. Because he thinks: Selling books in a country people don't like to read is a heroic act. (p.37) Idealistic debut wants to enlighten people's lives and lives in fact, his own life has always been a quagmire-marriage. The bookstore remains deserted. The trigger is the dream of a little girl named Nini. The son of one of ten ordinary people. His mother, Dina, was a toy salesman who was a high school student who didn't play in the court. Poverty suffocated when Mr. Nini became seriously ill. Nini's seven months did not go to school, caring for her father, while her mother worked on the cost of living and treatment. Nina's father's illness worsened and her life ended in a room of small puskesmas. It was even more disturbing when it turned out that his sister had started to have a father-like illness. Puskesmas officials say that only an expert doctor can know and treat the illness of her sister and her late father. Since then, Nini has been a great expert. Nini can be as stupid as her mother, Dina. But the difference is, Nini won't just give up. In the midst of the poverty and hardships of his life, he overcame nausea when faced with mathematics, which became the scourge of his lessons. Eventually Olini managed to increase her grades and was able to enroll in a medical university in accordance with the dreams she so struggled with. Dina tried to borrow everywhere, but it never worked. Then ten ordinary people regrouped. They're friends helping Dina get money for college. Any way, Nini's dream is theirs. What then got excited because all this time, their dreams never dared. ... Look at the number of poor smart kids that the government doesn't care about! Look at certain specialties that only rich people can enter! Look at the rarity of poor children being doctors! Turning to the faculty alone, they are hesitant. While their intelligence may be pitted! Science should be subject to intelligence, not wealth! Leaders, bureaucrats, politicians, busy with their pots... (Debut, p. 118) Yes, whatever they're going to do, Nini has to go to medical school. All that - including committing a crime though. Then the next storyline is how ten ordinary people plotted and executed crimes to get millions in Nini's tuition fees. Andrea Hirata first wrote a novel in the criminal genre. A new thing in his writing career. But his figures still correspond to the remote surveillance system. For some readers who are very laid can not understand, especially without the use of footnotes at all. It's just that thing that can be a little disturbing is the amount of evidence in this story. Banyangkan a bunch of ordinary people! Not to mention the name of his wife's son. Not to mention the circle of figures around the inspector and a simple sergeant. Plus the names of viline schoolgirls or bad guys who from school like to brag about a bunch of ordinary people. If I really like it. Tip: Don't try to remember character names while reading. Just read rilex, just banyangkan you're chatting ngalor ngidul with neighbors waiting for the baby to play the bike. Just let it flow and miraculously later on our own we will remember the characters. Even aja can imagine who is suitable for playing a character if filmed. Hehe. Agus Ringgo would be a poor idealist. Debut. And Panji became a simple inspector. It's fun to be filmed with a Hollywood-like suspense drama scene. Overall, I said that this novel is cool. The storyline is quite unique with an amazing twist at the end. The characters are also just ordinary people who may seem unique with amazing thoughts and are easily happy with simple things. Moreover, the moral message is amazing. And another story behind the creation of this novel also makes you feel blue. The OOB was written in a short time, 9 days only, with the promotion of the true story of his neighbor, who was unable to get into medical school at The University of Bengkulu because it was not worth it. The boy's name was Princess Belianti. This girl, whose dream has been extinguished, still often cries every time she sees an ad from 2013 that says she has been admitted to the Medical Faculty of Bengkulu University. He was unable to get through the mission's target program, perhaps because in 2013 it was not so much a mission as it is now. As for receiving on a regular basis, his mother's father could not afford a loan for the down payment. To this end at the beginning of his novel, Andrea writes: I represent princess BeliantiAnak poor, who is smart, and a bitter refusal to enroll in the Faculty of Medicine, University of Bengkulu. Well, it's just fiction. It's just a novel with character design. But this character princess Belianti is a real figure. It can be just like some poor kids neighbors around you. I really like and define the story in this novel of ordinary people because I am part of these ordinary people. If you feel high and feel that you are not an ordinary person, do not try to read this novel. If you are an apathetic, indifferent person, close your eyes to the ordinary life of the people around you, do not try to understand the language of the novel. Because this speaking style of ordinary people can only be understood by ordinary people. Isn't that right, Boy? Fight? orang orang biasa andrea hirata pdf download. novel orang orang biasa andrea hirata pdf. buku andrea hirata orang orang biasa pdf
